We are aware of the impact of our day-to-day operations on the environment; our objective is to balance the need to achieve our business aims with an effort towards sustainable environmental improvement, which can be measured and monitored on an ongoing basis.

Company management has a specific responsibility for policy development, coordination and evaluation of performance. The environmental policy will be maintained and upheld by the designated managers to meet the commitment. Environmental aspects of our processes and activities will be effectively managed in order to protect the health & safety of our employees, customers and the public whilst contributing to the future wellbeing of the environment.

- Improve waste management and reduce waste to landfill where possible
- Continually aim to minimise energy consumption through effective energy management
- Reduce wherever practicable the level of uncontrolled atmospheric emissions
- Manage and control effluent discharges arising from our operations

Appropriate resources will continually be made available to ensure that the environmental policy is implemented in full through managerial vigilance and regular audit and review.
